Our Children Future (OCF)

Our Children Future (OCF) is a child-focused organization committed to creating better opportunities and stronger futures for children through education, empowerment, and community support.

The identity is built around a distinctive pathway and placement-inspired symbol, representing guidance, opportunity, and the journey toward a brighter future.

The visual system combines a confident indigo with bright blue and warm yellow accents, reflecting trust, hope, optimism, and the energy of young people. Its clean, minimal forms create a modern and approachable identity while maintaining a strong sense of purpose.
Through its identity, OCF positions itself as a trusted organization dedicated to empowering children, opening pathways to opportunity, and helping shape a better future for the next generation.

Our Children Future

LOGO RATIONALE

The OCF logo represents **a child at the center of opportunity, growth, and a brighter future.**

The central circle represents the child — placing children at the heart of everything OCF stands for.

The **inner circular form** surrounding the child represents **care, protection, support, and a nurturing environment.** Its open lower section flows outward to create an abstract **pathway**, symbolizing the opportunities OCF creates for children to move forward and build their future.

The **large outer arc** represents a wider world of **possibility, community, and opportunity** surrounding every child. Its open structure suggests that the future is not closed or limited — there is always space to grow, explore, and go further.

Together, the forms create a visual journey:

Child → Support → Pathway → Opportunity → Future

OCF
Our Children Future

Education opens doors to opportunity.

We believe every child deserves the chance to learn, grow, and build a better future.

Every child has potential.
Together, we unlock it.
